build night 4

sequence models II

agenda

- faculty advisor meeting recap + scheduling pt2*
- a note on last week's homework
- wtf is federated learning?
- discuss dataset selection & split up work
- begin talking about training
- homework (remember to meet outside of build night!!!!)
- if time: work on homework

* please please please please put the *maximum availability possible* it was so hard to schedule ;-;

project structure

1

welcome &
problem definition

2

intro to
machine learning

3

sequence
models

4

sequence models ii
federated learning

5

federated
learning ii

6

data sourcing &
preparation

7

data prep ii &
model training

8

model pruning &
federation

9

poster &
presentation work

10

poster work ii &
practice

homework on github*

* yes i put it there beforehand this time 😊
